ANATP/BNATP Monthly Update July 2023

1. The instructor approval letters will soon look differently. Since all instructors must be approved for theory, lab, skills evaluation, and clinicals, the letter will simply state that the instructor is approved. It will no longer be broken down into approval dates for the different categories of instruction. The instructor code will still be in the upper right corner of the approval letter. CPR will no longer appear on the approval letter. We will check CPR credentials and student CPR certifications during monitoring visits.
2. Schedule revisions only for the purpose of adding or removing an instructor's name do not have to be sent to me. Keep your local copy updated.
3. The testing fee for the certification exam, effective July 1, 2023, is now \$85.
<https://www.nurseaidtesting.com/fee-schedule-2023/>
4. PLEASE. PLEASE. PLEASE. Include your program code(s) in ALL correspondence to me, regardless of topic!
5. Program Coordinators: Please check the CEUs provided to you by potential instructors. ALL CEUs must be in Alzheimer's/related dementias. Ensure that the correct number of CEU hours are included (four are required) and that the topics are correct. I have received numerous instructor code requests with missing information. When requesting instructor codes, include the instructor code request form and *only the required documents listed on the form!* I continue to receive copies of BLS Provider cards, nursing licenses, college transcripts, etc. These are NOT required.

As always, do not hesitate to call or email with questions.
