

INSTRUCTOR'S CALLING CARD

Assisting with toileting	Measuring vital signs	Dressing a resident	Changing bed linens	Positioning resident
Hand hygiene	Range of motion exercises	Bathing a resident	Assisting with grooming	Measuring intake & output
Emptying catheter bag	Assisting with transfers	Using a gait belt	Providing skin care	Assisting with dentures
Providing foot care	Making an occupied bed	Recording food intake	Assisting with hearing aids	Providing nail care
Measuring height and weight	Assisting with prosthetics	Reporting changes to nurse	Assisting with bedpan	Providing emotional support
Applying compression stockings	Measuring pulse	Measuring respirations	Applying ice pack	Applying warm compress
Assisting with walker	Assisting with cane	Assisting with wheelchair	Caring for eyeglasses	Assisting with colostomy bag
Collecting urine specimen	Collecting stool specimen	Disposing of soiled linens	Using infection control precautions	Assisting with ambu bag
Encouraging fluids	Observing skin breakdown	Assisting with feeding tube care	Assisting with oxygen cannula	Emptying emesis basin

Assisting with daily grooming	Providing back rub	Bedside commode assistance	Measuring blood pressure	Encouraging mobility
----------------------------------	-----------------------	----------------------------------	-----------------------------	-------------------------

B	I	N	G	O
Assisting with colostomy bag	Providing back rub	Assisting with hearing aids	Emptying catheter bag	Reporting changes to nurse
Measuring intake & output	Shaving a resident	Assisting with daily grooming	Recording food intake	Measuring height and weight
Hand hygiene	Measuring vital signs	★ FREE ★	Applying warm compress	Assisting with transfers
Providing foot care	Emptying emesis basin	Feeding assistance	Observing skin breakdown	Ambulation
Assisting with cane	Assisting with feeding tube care	Collecting stool specimen	Applying ice pack	Assisting with dentures

B	I	N	G	O
Recording food intake	Providing back rub	Assisting with ambu bag	Applying ice pack	Positioning resident
Bedside commode assistance	Assisting with cane	Assisting with dentures	Making an occupied bed	Assisting with oxygen cannula
Assisting with wheelchair	Hand hygiene	★ FREE ★	Assisting with daily grooming	Encouraging mobility
Providing nail care	Assisting with colostomy bag	Assisting with feeding tube care	Measuring respirations	Measuring blood pressure
Assisting with bedpan	Measuring pulse	Applying warm compress	Shaving a resident	Oral care

B	I	N	G	O
Assisting with daily grooming	Reporting changes to nurse	Oral care	Dressing a resident	Assisting with prosthetics
Assisting with cane	Providing nail care	Measuring height and weight	Collecting urine specimen	Assisting with colostomy bag
Encouraging mobility	Measuring respirations	★ FREE ★	Assisting with hearing aids	Emptying catheter bag
Using infection control precautions	Assisting with ambu bag	Changing bed linens	Emptying emesis basin	Measuring vital signs
Providing back rub	Feeding assistance	Recording food intake	Assisting with transfers	Shaving a resident

B	I	N	G	O
Providing back rub	Assisting with bedpan	Applying ice pack	Providing skin care	Assisting with wheelchair
Disposing of soiled linens	Measuring pulse	Applying warm compress	Using infection control precautions	Assisting with feeding tube care
Encouraging fluids	Emptying catheter bag	★ FREE ★	Using a gait belt	Assisting with prosthetics
Assisting with grooming	Assisting with dentures	Reporting changes to nurse	Assisting with oxygen cannula	Providing emotional support
Assisting with walker	Measuring intake & output	Assisting with hearing aids	Emptying emesis basin	Changing bed linens

B	I	N	G	O
Dressing a resident	Bathing a resident	Positioning resident	Measuring blood pressure	Applying ice pack
Measuring height and weight	Caring for eyeglasses	Assisting with walker	Perineal care	Assisting with cane
Assisting with colostomy bag	Applying compression stockings	★ FREE ★	Assisting with ambu bag	Assisting with daily grooming
Reporting changes to nurse	Feeding assistance	Oral care	Assisting with bedpan	Recording food intake
Shaving a resident	Assisting with dentures	Assisting with prosthetics	Assisting with transfers	Encouraging fluids

B	I	N	G	O
Emptying catheter bag	Applying compression stockings	Collecting urine specimen	Changing bed linens	Measuring respirations
Assisting with daily grooming	Measuring vital signs	Assisting with hearing aids	Shaving a resident	Reporting changes to nurse
Observing skin breakdown	Caring for eyeglasses	★ FREE ★	Assisting with transfers	Assisting with grooming
Using a gait belt	Collecting stool specimen	Applying ice pack	Encouraging mobility	Dressing a resident
Encouraging fluids	Positioning resident	Recording food intake	Perineal care	Bathing a resident

B	I	N	G	O
Assisting with toileting	Encouraging fluids	Assisting with grooming	Applying warm compress	Assisting with feeding tube care
Measuring respirations	Dressing a resident	Changing bed linens	Assisting with cane	Measuring pulse
Assisting with bedpan	Caring for eyeglasses	★ FREE ★	Providing foot care	Assisting with transfers
Collecting urine specimen	Assisting with wheelchair	Ambulation	Making an occupied bed	Assisting with prosthetics
Providing emotional support	Using infection control precautions	Disposing of soiled linens	Using a gait belt	Reporting changes to nurse

B	I	N	G	O
Assisting with oxygen cannula	Providing skin care	Reporting changes to nurse	Disposing of soiled linens	Hand hygiene
Bathing a resident	Providing foot care	Measuring respirations	Assisting with dentures	Positioning resident
Measuring blood pressure	Changing bed linens	★ FREE ★	Assisting with hearing aids	Assisting with feeding tube care
Emptying emesis basin	Recording food intake	Applying warm compress	Bedside commode assistance	Perineal care
Providing back rub	Observing skin breakdown	Assisting with grooming	Assisting with daily grooming	Applying ice pack

B	I	N	G	O
Recording food intake	Providing skin care	Encouraging mobility	Perineal care	Disposing of soiled linens
Bathing a resident	Assisting with ambu bag	Assisting with colostomy bag	Measuring height and weight	Providing back rub
Assisting with grooming	Oral care	★ FREE ★	Making an occupied bed	Measuring respirations
Applying warm compress	Assisting with dentures	Bedside commode assistance	Measuring intake & output	Assisting with feeding tube care
Reporting changes to nurse	Ambulation	Emptying catheter bag	Applying ice pack	Assisting with transfers

B	I	N	G	O
Measuring respirations	Assisting with hearing aids	Applying ice pack	Collecting stool specimen	Recording food intake
Emptying emesis basin	Providing back rub	Disposing of soiled linens	Measuring blood pressure	Shaving a resident
Encouraging fluids	Caring for eyeglasses	★ FREE ★	Assisting with toileting	Measuring vital signs
Making an occupied bed	Assisting with transfers	Bathing a resident	Emptying catheter bag	Assisting with daily grooming
Changing bed linens	Encouraging mobility	Positioning resident	Assisting with dentures	Using infection control precautions

B	I	N	G	O
Assisting with transfers	Positioning resident	Providing nail care	Bathing a resident	Recording food intake
Observing skin breakdown	Measuring blood pressure	Assisting with oxygen cannula	Assisting with hearing aids	Encouraging fluids
Applying ice pack	Assisting with ambu bag	★ FREE ★	Using a gait belt	Assisting with toileting
Disposing of soiled linens	Providing skin care	Bedside commode assistance	Feeding assistance	Assisting with cane
Assisting with colostomy bag	Changing bed linens	Reporting changes to nurse	Using infection control precautions	Providing emotional support

B	I	N	G	O
Measuring vital signs	Assisting with dentures	Collecting urine specimen	Caring for eyeglasses	Measuring height and weight
Shaving a resident	Disposing of soiled linens	Oral care	Encouraging fluids	Applying ice pack
Dressing a resident	Assisting with ambu bag	★ FREE ★	Assisting with daily grooming	Perineal care
Providing nail care	Using infection control precautions	Assisting with wheelchair	Hand hygiene	Providing skin care
Assisting with hearing aids	Providing foot care	Emptying emesis basin	Measuring blood pressure	Assisting with walker

B	I	N	G	O
Changing bed linens	Emptying catheter bag	Observing skin breakdown	Assisting with transfers	Assisting with feeding tube care
Assisting with daily grooming	Emptying emesis basin	Providing nail care	Applying ice pack	Assisting with cane
Assisting with bedpan	Perineal care	★ FREE ★	Shaving a resident	Positioning resident
Assisting with colostomy bag	Recording food intake	Providing emotional support	Hand hygiene	Bathing a resident
Measuring intake & output	Bedside commode assistance	Encouraging fluids	Applying compression stockings	Measuring vital signs

B	I	N	G	O
Caring for eyeglasses	Positioning resident	Disposing of soiled linens	Emptying emesis basin	Range of motion exercises
Measuring height and weight	Assisting with bedpan	Providing emotional support	Measuring intake & output	Emptying catheter bag
Assisting with prosthetics	Assisting with daily grooming	★ FREE ★	Assisting with grooming	Ambulation
Assisting with feeding tube care	Oral care	Encouraging mobility	Assisting with oxygen cannula	Assisting with dentures
Dressing a resident	Using infection control precautions	Measuring pulse	Feeding assistance	Providing back rub

B	I	N	G	O
Measuring vital signs	Providing skin care	Providing foot care	Bedside commode assistance	Assisting with daily grooming
Oral care	Feeding assistance	Applying warm compress	Caring for eyeglasses	Hand hygiene
Assisting with walker	Measuring respirations	★ FREE ★	Providing nail care	Shaving a resident
Collecting urine specimen	Using infection control precautions	Disposing of soiled linens	Assisting with grooming	Dressing a resident
Using a gait belt	Measuring blood pressure	Bathing a resident	Assisting with wheelchair	Emptying emesis basin

B	I	N	G	O
Measuring intake & output	Positioning resident	Range of motion exercises	Changing bed linens	Making an occupied bed
Measuring vital signs	Measuring pulse	Using infection control precautions	Feeding assistance	Ambulation
Applying compression stockings	Applying ice pack	★ FREE ★	Assisting with hearing aids	Applying warm compress
Assisting with wheelchair	Assisting with daily grooming	Assisting with dentures	Measuring respirations	Measuring height and weight
Assisting with cane	Providing foot care	Collecting urine specimen	Assisting with colostomy bag	Disposing of soiled linens

B	I	N	G	O
Providing emotional support	Bathing a resident	Assisting with toileting	Assisting with oxygen cannula	Disposing of soiled linens
Providing foot care	Applying warm compress	Measuring height and weight	Range of motion exercises	Observing skin breakdown
Assisting with dentures	Providing skin care	★ FREE ★	Assisting with colostomy bag	Assisting with bedpan
Assisting with ambu bag	Assisting with hearing aids	Applying ice pack	Positioning resident	Collecting stool specimen
Assisting with transfers	Perineal care	Using a gait belt	Emptying catheter bag	Dressing a resident

B	I	N	G	O
Providing emotional support	Encouraging mobility	Applying compression stockings	Assisting with hearing aids	Measuring blood pressure
Assisting with walker	Assisting with ambu bag	Using a gait belt	Hand hygiene	Reporting changes to nurse
Assisting with bedpan	Perineal care	★ FREE ★	Assisting with oxygen cannula	Assisting with prosthetics
Providing foot care	Measuring respirations	Recording food intake	Using infection control precautions	Applying warm compress
Emptying emesis basin	Assisting with grooming	Measuring pulse	Assisting with daily grooming	Assisting with cane

B	I	N	G	O
Bathing a resident	Assisting with bedpan	Assisting with ambu bag	Shaving a resident	Assisting with cane
Positioning resident	Emptying catheter bag	Assisting with transfers	Assisting with toileting	Assisting with dentures
Assisting with hearing aids	Measuring pulse	★ FREE ★	Applying warm compress	Oral care
Encouraging mobility	Measuring respirations	Providing foot care	Providing skin care	Applying compression stockings
Ambulation	Assisting with grooming	Changing bed linens	Measuring height and weight	Assisting with walker

B	I	N	G	O
Assisting with hearing aids	Collecting stool specimen	Assisting with ambu bag	Applying compression stockings	Assisting with wheelchair
Ambulation	Changing bed linens	Assisting with colostomy bag	Providing back rub	Collecting urine specimen
Assisting with bedpan	Assisting with toileting	★ FREE ★	Using infection control precautions	Caring for eyeglasses
Hand hygiene	Observing skin breakdown	Providing skin care	Providing nail care	Measuring blood pressure
Assisting with grooming	Providing emotional support	Bedside commode assistance	Encouraging fluids	Dressing a resident

B	I	N	G	O
Assisting with hearing aids	Range of motion exercises	Encouraging mobility	Providing emotional support	Measuring vital signs
Using infection control precautions	Collecting stool specimen	Ambulation	Assisting with oxygen cannula	Making an occupied bed
Shaving a resident	Dressing a resident	★ FREE ★	Providing back rub	Assisting with prosthetics
Caring for eyeglasses	Bathing a resident	Applying compression stockings	Assisting with bedpan	Changing bed linens
Emptying emesis basin	Observing skin breakdown	Assisting with dentures	Disposing of soiled linens	Applying ice pack

B	I	N	G	O
Using a gait belt	Assisting with walker	Applying compression stockings	Bathing a resident	Applying ice pack
Oral care	Assisting with wheelchair	Emptying emesis basin	Perineal care	Assisting with transfers
Assisting with daily grooming	Shaving a resident	★ FREE ★	Collecting stool specimen	Providing back rub
Emptying catheter bag	Measuring pulse	Feeding assistance	Measuring intake & output	Making an occupied bed
Changing bed linens	Assisting with cane	Assisting with oxygen cannula	Assisting with toileting	Reporting changes to nurse

B	I	N	G	O
Assisting with grooming	Perineal care	Assisting with prosthetics	Assisting with feeding tube care	Measuring respirations
Positioning resident	Measuring pulse	Observing skin breakdown	Collecting urine specimen	Hand hygiene
Emptying emesis basin	Ambulation	★ FREE ★	Assisting with transfers	Applying compression stockings
Providing back rub	Applying warm compress	Emptying catheter bag	Caring for eyeglasses	Providing skin care
Using a gait belt	Measuring height and weight	Changing bed linens	Assisting with dentures	Assisting with cane

B	I	N	G	O
Assisting with feeding tube care	Collecting stool specimen	Hand hygiene	Providing skin care	Reporting changes to nurse
Assisting with hearing aids	Measuring vital signs	Dressing a resident	Observing skin breakdown	Positioning resident
Applying warm compress	Providing emotional support	★ FREE ★	Assisting with daily grooming	Range of motion exercises
Assisting with ambu bag	Disposing of soiled linens	Assisting with oxygen cannula	Assisting with grooming	Emptying catheter bag
Emptying emesis basin	Measuring height and weight	Recording food intake	Encouraging mobility	Providing back rub

B	I	N	G	O
Assisting with hearing aids	Measuring intake & output	Assisting with feeding tube care	Assisting with colostomy bag	Applying ice pack
Assisting with ambu bag	Measuring pulse	Using a gait belt	Applying compression stockings	Assisting with bedpan
Assisting with toileting	Bedside commode assistance	★ FREE ★	Emptying catheter bag	Dressing a resident
Ambulation	Making an occupied bed	Assisting with dentures	Measuring vital signs	Changing bed linens
Hand hygiene	Providing foot care	Using infection control precautions	Providing emotional support	Collecting stool specimen

B	I	N	G	O
Hand hygiene	Shaving a resident	Using a gait belt	Bedside commode assistance	Providing nail care
Range of motion exercises	Assisting with dentures	Assisting with toileting	Perineal care	Measuring respirations
Observing skin breakdown	Measuring height and weight	★ FREE ★	Assisting with hearing aids	Feeding assistance
Assisting with wheelchair	Providing emotional support	Assisting with oxygen cannula	Collecting urine specimen	Measuring intake & output
Applying warm compress	Assisting with colostomy bag	Assisting with transfers	Recording food intake	Encouraging mobility

B	I	N	G	O
Collecting stool specimen	Using infection control precautions	Using a gait belt	Measuring blood pressure	Assisting with walker
Reporting changes to nurse	Assisting with oxygen cannula	Positioning resident	Providing back rub	Measuring intake & output
Assisting with hearing aids	Providing emotional support	★ FREE ★	Encouraging fluids	Recording food intake
Encouraging mobility	Feeding assistance	Assisting with daily grooming	Assisting with feeding tube care	Emptying catheter bag
Applying warm compress	Providing skin care	Assisting with transfers	Assisting with colostomy bag	Hand hygiene

B	I	N	G	O
Assisting with ambu bag	Changing bed linens	Applying ice pack	Bedside commode assistance	Positioning resident
Assisting with bedpan	Encouraging fluids	Assisting with wheelchair	Assisting with walker	Ambulation
Assisting with toileting	Assisting with colostomy bag	★ FREE ★	Applying warm compress	Measuring intake & output
Using infection control precautions	Assisting with grooming	Assisting with hearing aids	Measuring blood pressure	Caring for eyeglasses
Measuring height and weight	Collecting urine specimen	Providing nail care	Reporting changes to nurse	Range of motion exercises

B	I	N	G	O
